SUBJECT
Fish Data

SUMMARY OF COMMUNICATION

I inquired as to the status of the fish data and the identification number of Missouri Conservation ~~xxxx~~ as they relate to the samples. Kent indicated ~~xx~~ that Ray Forester was preparing this information to transport to us. Kent indicated that Ron Crunkilton had helped classify about half of the fish and Syntex had completed the job.

o Kent indicated that no rerun results had been received from Nebraska at this time but that a followup call by Syntex would be made. I requested Kent to contact me once he knew the status so I could keep management here informed and state officials who also had an interest.

I ask if Kent was aware of the result of the Missouri meeting and he indicated ~~x~~ that he was. Kent ask if there were any new developments. I indicated we continue to work on the horse arenas and related sites and overview other activities. I offered ~~x~~ my appology to Kent for my delayed response to Mr. Murray's letter. I concluded the call requesting that Kent~~x~~ let me know as soon as possible concerning the rerun data and the whole fish data. He stated he would. Call ended.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

Will continue to track closely
